Joshua M. Battung

BSIT Student | Aspiring Software Developer

PROFILE

Information Technology student with hands-on academic project experience designing and building a web-based queue management system for student services. Interested in software development, user-focused interfaces, and practical IT solutions.

TECHNICAL SKILLS

Web: HTML, CSS, JavaScript, Bootstrap

Programming: PHP, Python, Java

Database: MySQL, database fundamentals

Areas of interest: Networking, cybersecurity

PROJECT

Digital Queue Management System for Student Services

Capstone / Academic Project | Full Stack Developer, UI/UX Designer, Database Contributor

- Contributed to a web-based system for managing student queue requests and appointments across school offices and service counters.
- Designed the user interface and worked on queue workflow logic, data handling, testing, and project documentation.
- Implemented and documented features including appointment scheduling, queue tracking, an administrative dashboard, and request status updates.
- **Technologies:** HTML, CSS, JavaScript, PHP, MySQL, Bootstrap

EDUCATION

Bachelor of Science in Information Technology (BSIT)

Current student
